

### Community Readiness Assessment Scoring Sheet

**Combined Scores:** For each interview, the two scorers should discuss their individual scores and then agree on a single score. This is the COMBINED SCORE. Record it below and repeat for each interview in each dimension. Then, add across each row and find the total for each dimension. Use the total to find the calculated score below.

**Calculated Scores:** Use the combined score TOTAL and divide by the number of interviews conducted.

Interviews	#1	#2	#3	#4	#5	#6	#7	Combined Score Total		Total # of Interviews		STAGE SCORE

Dimension B								0	÷	7	=	0
Dimension C								0	÷	7	=	0
Dimension D								0	÷	7	=	0
