

SPF-PFS OCAM

OHIO COACHING & MENTORING NETWORK

REGIONAL LEARNING COLLABORATIVES

Ohio's Regional Learning Collaboratives are designed to engage Ohio's prevention professionals located within rural and Appalachian communities to offer guidance and support as they seek and obtain their Ohio Certified Prevention Specialist (OCPS) credentials. As a link within OCAM, coaches will assist with eliminating barriers, provide technical assistance and equip area professionals and community members with the necessary skills and knowledge to implement evidence-based prevention.
